U.S. Ski Resorts in Operation During 2018/19 Season

LAKEWOOD, Colo.— August 1, 2019 –The National Ski Areas Association (NSAA) reports 476 ski areas were in operation during the 2018/19 season, according to the Kottke National End of Season Survey. (Note: Each season several areas are unable to open due to weather. The change in number of operating areas is often due to the fact that several areas close during a season and reopen for the following season)

Number of Ski Areas Operating in the United States, 1991-2019

- 2018/19 476
- 2017/18 472
